I believe HKU remains to be one of the few institutions that provide merit-based scholarships for degrees such as medicine, which has been of enormous support to me given its lengthy 6-year curriculum. Without the scholarship, I would not have had the privilege to pursue my dream of studying medicine overseas here while having the financial burden largely taken care of.

SEE WHAT HKU SCHOLARS HAVE TO SAY!

It was 2 years ago, when I heard about The University of Hong Kong. This was my dream and became my reality one year after. Thanks to this exclusive scholarship opportunity, I am now able to study in a prestigious university in the science field around the globe. Hong Kong is a great city full of cheerful, friendly, and beautiful people. I feel truly fortunate and privileged to be able to study in HKU and I enjoy it as much as I can.
